Issue:

The recalled products have been mislabeled with US versions of the product label instead of the correct Canadian labels. As a result, the recalled products do not have the proper consumer chemical labelling as required by the *Consumer Chemical and Containers Regulations, 2001* under the *Canada Consumer Product Safety Act*.

The lack of appropriate labelling information could result in unintentional exposure to the products and lead to serious illness or injury.

As of December 3, 2024, the company has received no reports of incidents or injuries in Canada.

What to do:

Consumers should immediately stop using the product and safely dispose of them in accordance with local municipal hazardous waste requirements.
